### **Grandparents enjoy tea at St. John's**

In celebration of Grandparent's Day, St. John's hosted the second annual Grandparents' Tea. With nearly 200 grandparents attending this year, many students were able to spend time with their grandparents. With such large interest, the event was offered at two times on September 22. Students met grandparents in the parish hall where they enjoyed conversation, questions and a reception. Students gave their grandparents special bookmarks they made for the occasion.

Grandparents and students were entertained by the St. John's middle school choir. Thank you to all of the grandparents who were able to attend the event - we look forward to seeing you next year!
