Do you love to build and create with Legos and use your imagination? Now is your chance to put your modern knowledge to work. Through this camp, students will learn about life in a Medieval European castle, including the role of knights and chivalry, the work of peasants and serfs, the zeal of the Crusades, and different aspects of castle design and fortification. Led by our nationally ranked Model UN coach, participants will be thrust into the heart of the global world as they learn to research and role play countries in international debates that tackle pressing and timely world issues. These experiences will help participants learn about a broad spectrum of international issues and how to achieve conflict resolution and how to debate.
